

## **4 Person Scramble Rules**

### **Week 1 & 2 (Setting a team Handicap)**

The First 2 weeks of this league will be setting a team handicap. Week one you will play 9 holes as a scramble. That score will be recorded but not for standing purposes. Week 2 will be same as week one. Those 2 scores will be added up and that will establish your handicap as a team for the season. Handicap could change depending on toughness of course and other scores posted though out the league.

### **Scoring:**

- Your scramble team will play against the team in the bay next to you in your suite. (ex. if you are in suite 9, bays 19 and 20 will be playing against each other)
- Scoring is Match Play with team handicaps
- If you win a hole that will be 1point, tying a hole will be half a point, losing a hole will be zero points. The team that wins will gain one extra point for winning. This is with the established handicap included.

### **Rules:**

4 Person Scramble. Each team member may hit every shot thru the green until the ball is holed out. The team members are to decide which shot they prefer and hit from that location. Toptracer will automatically select the closet to the pin. To change your selected shot, select the player's name / color on the bottom left on the screen. Putting is done to multiple short target greens you can select from. Once the lowest score possible is made the system will then move you to the next hole.

### **Tee Boxes:**

- Men play from one tee box up from the back tees
- Women will play from ladies' tees that is designated for the course that night and will be announced on the scorecard

### **Toptracer Virutal Golf Helpful Hints & Rules:**

- Once you arrive at your bay each player will enter their name into the game play system. Staff will be by at 6pm to help switch your screens to the event format.
- Please feel free to practice prior to 6pm. All game play modes are available, but please do not select the weekly selected Virtual Course for warm up.

- Be aware of your aim point. The aim point is noted in the top left of your game screen and also by the color of the dotted line on the screen being color coordinated to the target you are aiming at.
- Be aware of who's turn it is when you tee off. After players tee off you can go in any order you wish. The tee sheet is crucial as players may be playing different tees. So please pay attention. Please immediately alert a staff member if this takes place.
- There is no way to skip a player's turn. So please wait patiently if someone needs to step away.
- No Mulligans are allowed. The system will note any mulligans taken.
- The rubber tee is only allowed to be used on tee shots.
- The system does recognize trees, and other hazards so play your shot accordingly. Aim can be adjusted by touching the game screen and sliding your finger towards the direction you wish to hit.
- Game play putting is full shots to shorter targets.

**Weekly Warm Up:**

Each bay will be available from 5:30 pm – 6:00 pm to warm up. You will have access to all Toptracer Games prior to the event. Please do not select Virtual Course for the weekly events for warm up sessions. Feel free to use warm up mode or another course in the Virtual Course library.
